Hi, my name is Nuo and I'm happy with the name Neil as well. I'm a new graduate from UTS and enjoying the gap after graduation from my Bachelor studies. Meanwhile, I would like to start some casual jobs that can support my Master's studies. I am a proactive and dedicated individual with a passion for learning and applying my skills in real-world scenarios. During my studies, I've experienced many group projects and I believe with my communication skills, attention to detail, and a natural ability to adapt, I am confident in my ability to make a positive impact in any work setting. I am a quick learner, always seeking ways to enhance my capabilities and contribute effectively to the success of any project or task at hand.

If you have any opportunities that you think would be a good fit or if you'd like to know more about my background and skills, please feel free to reach out. I am more than happy to engage in a conversation or via email.
